*Abstract*— ABSTRACT GOES HERE

*Index terms*—Natural Language Processing, Sentiment Analysis, Gun Control, VADER, Large Language Models

## I. INTRODUCTION & LITERATURE REVIEW

*(Introduces the research question, reviews previous work in the field, and presents a gap in the field)*

## II. METHODOLOGY

*(Provides an explanation of and justification for the chosen method or process)*

## III. RESULTS / FINDINGS

*(Presents findings or results)*

## IV. DISCUSSION / ANALYSIS

*(Interprets the significance of results in the context of the research question)*

## V. CONCLUSION & FUTURE DIRECTIONS

*(Highlights a new understanding, the limitations of your methodology, possible implications of your project, and future research that could be accomplished)*

## VI. REFERENCE LIST
